

# We celebrate "Castanyada"

In the morning, the "Castanyera", the woman who cooks chestnuts, sent us a letter telling us she was lost and we had to find her in our village.

Previously, the students' families has prepared a path made of chestnuts in order to find her. The children followed the way and they arrived in a park where they found the "Castanyera". Then, she explained us the story of this tradition.

Finally, we all danced and sang with her.

In the afternoon, all the school went out to the playground and we all danced different typical dances for the families. After that, the families gave some toasted chestnuts to the pupils and they ate those together.

It was a wonderful experience! We all enjoyed it a lot!
